

You are cordially invited to a book launch
including reception, discussion, and book signing
with
Dr. Allen Dieterich-Ward

“In this sweeping yet succinct account, Allen Dieterich-Ward brings to life Pennsylvania’s environmental history—from the birth of the conservation movement in the nineteenth century to the impacts of climate change we’re experiencing right now. This groundbreaking book is a crucial resource for anyone seeking to understand the people, places, and policies that have shaped—and continue to shape—life in the Keystone State and beyond.”

- Cindy Adams Dunn, Secretary, PA Dept of Conservation and Natural Resource
